Structure Festival – Terneuzen (NL)
Sunrise Festival – Lilse Bergen (B)
Sunset Festival – Lilse Bergen (B)
Smaller private sets/parties in The Netherlands, Belgium and Norway

Biography: **In the early 80's he learned it at his mother's knee. Born in August 1980 and raised by parents with their "roots" in the radioscene it wouldn't take long before Sebastiaan Keijmel, better known as DJ B.K., found his passion for music as a DJ. All of this in a way you could call eclectic.** While all his friends played with the usual toys of that day, B.K. started playing with music and created his first tapes. Some of them were just mixtapes, others contained full radio shows. In 1997 B.K. was asked to join the radio show "The 20th Century" broadcasted on "ScheldemondFM Radio". In the following years DJ B.K. expanded the show to "The 21st Century" to a "weekly three evenings and nights" On-Air Dance Event covering the whole Party Scene. In the past years B.K. developed his own style of playing which is energetic, widely orientated and accessible for a vast audience. The latter was also known in club Joy (near the Dutch-Belgium border) where B.K. has earned his first residency with it in 2002. In 2011 B.K. was asked for his style to become monthly resident in the largest club in his province; club Hooizolder. Always open for new challenges, 2013 became a memorable year for B.K. started with showing his Retro-skills in the Jack-Contest at club D-Lux, Gigs for "Feathers" at Noxx Antwerp & Beachland, a nicely filled agenda and starting the deejay duo 2nJoy with Daniel Dankaart. He also started a project called "Party-People Zeeuws-Vlaanderen" encouraging his fans to join him during his gigs, even he was surprised when he needed to order touring cars for over 350 people to join him in NOXX in the beginning of 2014, so lets see what this year will bring! Due to his own style which is based on the Dance genre with all it's features, it's impossible to predict the start of their club-night, and nor it will end. All of this combined with the present "floorlifters" will take you to a true "Journey into Sound"!
